

Video/Photo - Consent Form

In "Kids Pilates in Action" we teach Pilates to children in school, after school clubs and exercise venues. Our purpose is to create body-posture awareness from a young age to prevent health problems in adulthood. By practising Pilates, kids can get stronger and more flexible muscles that could provide better balance and coordination and prevent from sports injuries.

We want to influence children in the practice of healthy habits; thus we would like to spread what we do and to engage as many kids as possible. With that purpose in mind, we need to produce graphic material and testimonials from our students; therefore, this form has the intention, to ask for your permission to use the visual material in which your child would have appeared.
